Work

PRODUCT ANALYST, *CURALENS.AI* 2020-

I analysed therapy transcripts and thence created classifiers and testing data for a machine learning algorithm that will perform mental health assessments.

STRATEGY CONSULTANT, *EDEEU EDUCATION* 2019-

I designed the product specification for the second iteration of EDeeU's software and subsequently delivered a range of the contents for this software (curricula and syllabi).

TEACHING ASSISTANT, *KING'S COLLEGE LONDON* 2019

I co-wrote the class materials for Dark Matter and Dark Energy, a graduate class in physics while still an undergraduate student myself, having never taken such a course before.

PHILOSOPHY TEACHER, *THE PHILOSOPHY FOUNDATION* 2018-

I have been teaching classes (in school and outside) and designing tailored teaching materials.

MATHEMATICS, PHYSICS, PHILOSOPHY, AND DEBATE TUTOR, *SELF-EMPLOYED* 2017-

I worked part-time alongside my own studies to help other university students from all over the world to achieve top grades in subjects that I taught myself while teaching these students and achieving top grades of my own in different subjects.

RECEPTIONIST AND SECURITY GUARD, *NOKAS* 2013-2019

I worked part-time besides my upper secondary education, as well as for holiday covers during my time at university, with the key task of keeping clients safe and happy while handling mail, visitors, shipments, calls, and on-site security.

Education

MSCI PHYSICS & PHILOSOPHY (FIRST CLASS HONS), *KING'S COLLEGE LONDON* 2016-2020

Everettian Literalism and Many Memories (81/100), *Philosophy MSci Dissertation* 2020

Computational Simulation of Electromigration (69/100), *Physics MSci Project* 2020

Selected philosophy essays:

What, for Kant, is the origin of the syntheticity of mathematics? (76/100) 2020

Does Everettian Many-Worlds realism solve the measurement problem? (80/100) 2019

Does Quinean naturalism entail the existence of numbers? (77/100) 2019

Is pictorial representation conventional? (75/100) 2019

Does explanationist realism entail the existence of numbers? (75/100) 2019

Should physics seek constructive rather than principle theories? (80/100) 2018

BA PHYSICS & PHILOSOPHY (DISCONTINUED, GPA 3.68/4.00), <i>UC BERKELEY</i>	2015-2016
Philosophy of Mind (A), <i>Philosophy</i>	2016
Calculus (A+), <i>Mathematics</i>	2015-2016
Intermediate Logic (A-), <i>Philosophy</i>	2016
Introduction to Logic (A+), <i>Philosophy</i>	2015
Astronomy Seminar (A), <i>Physics</i>	2015

Skills

English (C2), Norwegian (C2), Spanish (A2), Finnish (A1), Python, Matlab, CSS, HTML, LaTeX, Excel, basic R, and basic SQL.

Interests

In my spare time, alongside studies and part-time work, I have organized several reading groups: one on the philosophy of mental disorder (2019-), one on the history of systems theory (2019), and one on the epistemology of peer disagreement (2018).

I am an avid reader of fiction and philosophical nonfiction. I am currently reading Ursula K. Le Guin's *The Dispossessed* and Karen Olsson's *The Weil Conjectures*.

My upper secondary education was at a sports academy, where I played football at an elite regional level. I graduated top of my class with GPA 5.98/6.00.
